

Program : U.S. Federal Agency
Project : Domestic BPA Contract
Time Period : 2011 (Since 2009)
Location : Domestic (United States)
Contract Value : USD 1,000,000 (appr.)

Professional Staff Allocated

Barry Kroon – Managing Director (USA)
Baily Meeker – Project Coordinator (USA)
Tanya Daugherty– Project Specialist (USA)

United States

Objective : Provision of IT hardware and software on a competitive blanket purchase agreement (BPA).

Hardware : IPA assists with the development of agency-wide standards for a variety of hardware including complex, configured-to-order items such as servers, desktops and notebooks. We also supply office equipment from printers, toner and wireless routers to tape libraries and back-up tapes.

Software & Maintenance Renewals: The client currently utilizes over 35 types of software. Through the domestic BPA, IPA assists in tracking software renewals and maintenance contracts. Due to IPA'S strong relationship with many software providers, we can ensure competitive pricing and updated technology.

Special Projects : IPA was awarded the Agency's domestic desktop refresh in early 2011. This refresh entailed the provision and installation of 750 custom configured desktops and monitors to all ten of the client's U.S. locations. IPA also coordinated the removal and recycling of the existing equipment.

Support & After-sales : IPA honors and facilitates all software provider and manufacturer warranties of the products and services purchased.
