Rwanda

Objective : To assist the client in establishing a microfinance institution. This program works primarily with women and offer small loans and training to help their businesses succeed. This financial security assists women in Rwanda to feed, clothe, educate and buy medicine for their children and orphans they care for, as well as develop the communities in which they live.

Needs Assessment : The client required a variety of equipment to implement their new banking software. IPA worked with several manufacturers to meet the requirements of both the IT hardware and software including desktop computers, server racks and UPSs. Safety and backup power equipment was also required in the form of Fire Sensors and a backup generator for the IT equipment.

Equipment & Supplies : Dell Desktops, Smoke / Fire Sensor and Towers, APC UPSs, Barracuda Web Filter & Load Balancer, Finger Print Readers, Projector & Lamp, Dell Server Racks & KMM Console, Kaspersky Business Space Security Licenses, HP Printers, Cisco Router, Epson Thermal & Impact Receipt Printers & Paper and Perkins Diesel Generator & Spare Parts Package

Supply Chain & Logistics : In order to provide the most cost effective and efficient solution, several shipments were made to Kigali using a variety of methods. Air and sea shipments were sent from the U.S., U.K. and Europe to reduce the costs associate with consolidating international shipments.
