

**Mission** : International NGO

**Project** : Laptops and Accessories

**Time Period** : Aug – Oct 2022

**Location** : Kenya

**Contract Value** : USD 20,000+

**RELIABLE SUPPLY CHAINS**

Formerly:  Since 1983 

**Professional Staff Allocated**  
Hannah Bender – Project Specialist (USA)  
Cameron Telesz – Project Associate (USA)

**Kenya**

### **Project objective:**

**RSC worked with the international NGO in Kenya to source and distribute various laptops and accessories.**

### **Pre-Shipment Services:**

Due to this project having a large quantity of IT equipment, all goods for this project were delivered to our on-site Quality Control Center (QCC) for inspection, consolidation, and repacking. As part of the inspection and consolidation process, the QCC inspected all goods to ensure quantities and part numbers were accurate and all items were free of damage.

All shipments destined for Kenya require a Certificate of Conformity (CoC) to be included with the customs documentation (some exclusions apply). RSC obtained the CoC by working closely with our inspection partner. During this process, RSC thoroughly researched to provide required documentation, which was needed for the inspection to be scheduled. To maximize time and efficiency, the inspection was conducted remotely at the QCC.

After the inspection passed, RSC was issued the final CoC, and the QCC packed a total of 15 laptops, 14 carrying cases, and 14 plug adapters together in a half pallet.
